BOOM COUNTRY: IS INDIA SERIOUS THIS TIME?

Over the next decade, will India provide opportunity and growth for business leaders and large-scale investors in Switzerland, or continued bureaucratic entanglement and shareholder uncertainty?

From retailing, automobiles, infrastructure, manufacturing, IT and energy to today's new wave of Indian enterprise, Alan Rosling CBE has first-hand experience at the helm of some of the largest and most promising companies in India. He worked alongside Ratan Tata to spearhead the \$100bn group's international expansion strategy, including the acquisition of Jaguar LandRover, Corus and The Pierre hotel. He currently serves as Co-founder of Kiran Energy, one of India's fastest-growing solar-energy companies. His talk sheds light on India's direction, the thinking behind its great political and economic forces, and uncovers the extent of this nation's relevance to globally-minded business leaders and investors in Switzerland.
